Boot Care Tips

- **Protect them** Before you wear new boots, use a water- or stain-proofing spray, says David Mesquita, owner of N.Y.C.'s Leather Spa. "It can protect leather, suede, nubuck—even satin and silk evening boots." (One to try: Leather Spa's Wetbloc Combo, \$12.99; leatherspa.com.)
- **Let them air dry** If they're wet, stuff boots with newspaper so they keep their shape. But don't overstuff—"It'll result in bulges," Mesquita says.
- **Remove salt stains** Combine one part white vinegar with two parts water, then apply to stains before they set. Let boots dry, then use a leather cream or suede spray to rejuvenate them.

* **Daniblack** From Sept. 18 to Oct. 22 enter "DanStyle" at checkout to receive the discount on these boots.
 ** **Matiko Footwear** From Sept. 18 to Oct. 22 enter "MatikoStyle09" at checkout to receive the discount on these boots.
